### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with D. Novais (Reg. No. 33,324) on 29 October 2004.

The application has been amended as follows:

Delete non-elected Claims 5 – 52.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a method for creating a digital image file from a developing film comprising the steps of applying developer to the film to cause the film to begin to develop, then moving the film through a first and second scanning module while the film is still developing, creating a first and second digital image of the film at each scanning module and moving the film through an opening between the first and second scanning modules.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ishikawa (US 20030035149) discloses feeding a developed film through a first and second scanning station and forming a digital image.
